

## SILENT POWER PACK

### GENERAL

The **SILENT** Power Pack is a self-propelled aggregate specially designed to supply a preheater or a melting set with its needs of hydraulics, electricity and diesel for the burner.

The engine is an aircooled diesel engine with low diesel consumption.

The engine is silent with noise-proof capsule, which reduces the noise level substantially.

In total this Silent Power Pack automatically can supply power for you melting for at least one day.

The units can be put on a trailer, truck or anywhere suitable.

We offer different sizes depending on the capacity need you have.
